Supplier readiness report

Indicative, sources linked, not legal advice.

Open now in Spain under your codes (12)

See the 12 open tenders

Elsewhere: Germany (4); Poland (7); Netherlands (2).

Who to approach

Automotive suppliers usually enter defence as subcontractors: they sell to the prime contractors and their large suppliers, not to a ministry.

From 22 Oct 2023 to 22 Oct 2026, in Spain, Germany, France, Poland, Netherlands: 496 companies won defence-scope procurements under your codes. 32 won 3 or more and are named below, most contracts first.

Direct suppliers in Spain

Companies of your country that sell these products to the defence buyers directly: competitors, partners or customers for your parts.

SUMINISTROS MERA SL (Spain)

56 contracts won in Spain; latest notice published 21 Oct 2026.

Contract values: no stated value

URO VEHICULOS ESPECIALES, S.A. (Spain)

49 contracts won in Spain; latest notice published 10 Sep 2026.

Contract values: EUR 1,512,500 over 1 contract; 48 of 49 contracts state none

---

Suyfa Defence, S.L. (Spain)

40 contracts won in Spain; latest notice published 25 Sep 2026.

Contract values: EUR 1,425,000 over 1 contract; 39 of 40 contracts state none

ITURRI S.A. (Spain)

38 contracts won in Spain; latest notice published 19 Oct 2026.

Contract values: EUR 181,928,000 over 2 contracts; 36 of 38 contracts state none

IVECO ESPAÑA, S.L. (Spain)

36 contracts won in Spain; latest notice published 13 Jan 2026.

Contract values: no stated value

SUMINISTROS SANTO DOMINGO SL (Spain)

32 contracts won in Spain; latest notice published 11 Aug 2026.

Contract values: no stated value

VOLVO GROUP ESPAÑA, S.A.U. (Spain)

30 contracts won in Spain; latest notice published 19 Oct 2026.

Contract values: EUR 203,818,000 over 1 contract; 29 of 30 contracts state none

C & A COMERCIAL ARTIGAS E HIJOS SL (Spain)

27 contracts won in Spain; latest notice published 5 Oct 2026.

Contract values: no stated value

IBERDEFENSA MANTENIMIENTO TECNICO SL (Spain)

24 contracts won in Spain; latest notice published 16 Sep 2026.

Contract values: no stated value

MADZEAL, S.L. (Spain)

24 contracts won in Spain; latest notice published 20 Oct 2026.

Contract values: EUR 4,012,500 over 2 contracts; 22 of 24 contracts state none

Prime contractors and large defence groups among them

Indra Sistemas, S.A. (Spain) **Prime or large defence group: Indra** **EDF projects: 64**

3 contracts won in Spain; latest notice published 27 Feb 2026.

Contract values: EUR 476,301 over 1 contract; 2 of 3 contracts state none

---

SAAB AB (Sweden) **Prime or large defence group: Saab** **EDF projects: 3**

4 contracts won in Spain; latest notice published 11 Aug 2026.

Contract values: EUR 29,346,227 over 1 contract; 3 of 4 contracts state none

372 other winners with fewer than 3 awards each (448 awards together) are counted, not named. 92 more winners with 3 or more awards (409 awards) are not listed: the list stops at 30, and every prime contractor or large defence group is on it.

All 496 winners for these codes

Who buys what you make

Defence-scope notices from 22 Oct 2023 to 22 Oct 2026 with a code under one of your CPV codes, in Spain, Germany, France, Poland, Netherlands: 4311 procurements by 160 core defence buyers and 183 other defence-scope buyers; under Directive 2009/81/EC: 178 of 4311 (4 %).

On paper, each winner below is shown with its newest notice and a notice by its number; the report in the browser lists up to three, with the link to each at its source.

Spain (your country)

1515 procurements by 46 core defence buyers and 33 other defence-scope buyers; under Directive 2009/81/EC: 33 of 1515 (2 %); with a published winner: 1229.

Buyers with the most procurements

1. Jefatura de Asuntos Económicos del Mando de Apoyo Logístico (core defence buyer, 259 procurements)
   Awarded: EUR 2,450,000 over 14 contracts
2. Jefatura de Intendencia de Asuntos Económicos Este (core defence buyer, 199 procurements)
3. Jefatura de Asuntos Económicos de la Fuerza Terrestre (core defence buyer, 95 procurements)
4. Intendente de Ferrol (core defence buyer, 60 procurements)
5. Intendente de San Fernando (core defence buyer, 58 procurements)
6. Intendente de Cartagena (core defence buyer, 56 procurements)
7. Dirección de Adquisiciones del Mando de Apoyo Logístico del Ejército del Aire y del Espacio (core defence buyer, 52 procurements)
8. Intendente de las Palmas (core defence buyer, 50 procurements)
9. Dirección de Gestión Económica de la Jefatura de Apoyo Logístico de la Armada (core defence buyer, 45 procurements)
10. Jefatura de Intendencia de Asuntos Económicos Sur (core defence buyer, 45 procurements)

Germany

306 procurements by 17 core defence buyers and 45 other defence-scope buyers; under Directive 2009/81/EC: 39 of 306 (13 %); with a published winner: 25.

Buyers with the most procurements

1. Bundesamt für Infrastruktur, Umweltschutz und Dienstleistungen der Bundeswehr (core defence buyer, 148 procurements)
   Awarded: EUR 2,450,000 over 14 contracts
2. Bundesamt für Ausrüstung, Informationstechnik und Nutzung der Bundeswehr (core defence buyer, 46 procurements)
3. HIL Heeresinstandsetzungslogistik GmbH (core defence buyer, 12 procurements)

France

87 procurements by 30 core defence buyers and 21 other defence-scope buyers; under Directive 2009/81/EC: 37 of 87 (43 %); with a published winner: 7.

Buyers with the most procurements

1. MINARM/AIR/SIAé (Ministère des Armées) (core defence buyer, 15 procurements)
   Awarded: EUR 2,450,000 over 14 contracts
2. ECONOMAT DES ARMEES (core defence buyer, 7 procurements)
3. MINDEF / EMA / SCA / PFC SUD (core defence buyer, 5 procurements)

Poland

2313 procurements by 64 core defence buyers and 81 other defence-scope buyers; under Directive 2009/81/EC: 50 of 2313 (2 %); with a published winner: 34.

Buyers with the most procurements

1. 3 Regionalna Baza Logistyczna (core defence buyer, 146 procurements)
   Awarded: EUR 2,450,000 over 14 contracts
2. 2. Regionalna Baza Logistyczna (core defence buyer, 134 procurements)
3. 4 Regionalna Baza Logistyczna (core defence buyer, 114 procurements)

Netherlands

90 procurements by 3 core defence buyers and 3 other defence-scope buyers; under Directive 2009/81/EC: 19 of 90 (21 %); with a published winner: 15.

Buyers with the most procurements

1. Ministerie van Defensie (core defence buyer, 80 procurements)
   Awarded: EUR 2,450,000 over 14 contracts
2. Politie (other defence-scope buyer, 5 procurements)
3. Ministerie van Buitenlandse Zaken (other defence-scope buyer, 2 procurements)

Appendix B: supplier roadmap, with the free guides and grants

2 items are in place, 2 are needed now on your answers, and 4 depend on a contract, a condition or an answer. 2 items need a specialist. Meeting these requirements does

not win a contract: each buyer sets its own conditions in the tender documents.

In place first, then what is needed now, then what depends on a contract, a condition or an answer; a step that must come first is always listed first. Cost and time are in the words of the requirement's source, as on your roadmap page; where no source states one, the line says so.

In Spain these steps are covered by free public material: the guides to the RID and to PECAL/AQAP of Murcia's CAETRA programme, and regional programmes that have paid for the steps themselves (on each step below, with the call or list they come from). A free course:

- Dual Technology & Industry Readiness Programme (https://es.ara.cat/economia/industria/gobierno-impulsa-plan-introducir-400-empresas-sector-defensa_1_5703773.html) (ACCIÓ (Generalitat de Catalunya), announced 10 April 2026): a free 7-hour in-person course for 400 companies (automotive, space, metalworking, machinery) on certifications, homologation and access to state and EU procurement.

1. ISO 9001 quality management certificate

In place

In place: you hold it.

2. IATF 16949

In place

In place: you hold it. No rule of this check reads it.

3. NCAGE code

Needed now

Missing, and needed for what you said you do.

You need an NCAGE code to supply through NSPA or to have NATO stock numbers assigned. It is free of charge.

Cost	Free of charge (NSPA)
Time	Up to 14 working days on average; routine priority is 10 calendar days, emergency is 3 working days

Issued by: Unidad de Catalogación (SECAT-OC), acting as Oficina Nacional de Catalogación (ONC) for NATO, within SDG INREID, Dirección General de Armamento y Material (DGAM), Ministerio de Defensa.

To answer: Is a product of yours bought by the Ministry of Defence (so that it must be catalogued), or do you need an NCAGE code to register in the US System for Award Management (SAM)?

4. RID registration (Registro de la Industria de Defensa, Spain)

Needed now

Missing, and needed for what you said you do.

You need a current RID certificate to be in the Ministry of Defence's catalogue of actual or potential suppliers, and for PECAL certification and the NATO Declaration of Eligibility. It is requested online from the DIGEID, with the company's electronic certificate.

Cost Not stated by the source

Time Not stated by the source

Issued by: Dirección General de Estrategia e Innovación de la Industria de Defensa (DIGEID), Ministerio de Defensa.

Free guide: Guide to registration in the RID (Registro de Empresas DGAM) (https://caetraprogramme.institutofomentomurcia.es/wp-content/uploads/2024/11/1_Guia_CAETRA_RegistroDGAM.pdf) (CAETRA programme, Instituto de Fomento de la Región de Murcia, November 2024).

Regional grants that have paid for this step:

- **Closed** Aragón (your region): IAF, Orden ECE/1276/2026 (BOA 4 September 2026) (https://www.iustel.com/diario_del_derecho/noticia.asp?ref_iustel=1269075), for PECAL/AQAP, ISO 9001 and EN 9100; RID registration; HSEM/HSES paperwork; homologation; tender and proposal consultancy; EUR 5,000 to 30,000 per company; 70 % for micro-companies and start-ups, 50 % for SMEs (call open 7 to 25 September 2026 (closed)).

Check the current call before you count on it: windows, amounts and conditions change from one call to the next, and the figures are those of the call or list named.

5. AQAP 2110 quality assurance certification

Depends

Only when a contract names it.

AQAP 2110 (or 2310 for aviation and space) is required where a NATO or national contract names it. This service cannot know which of your target contracts do.

Comes after: ISO 9001 quality management certificate.

Cost Not stated by the source

Time Not stated by the source

Issued by: Spanish state route: PECAL, audited through DGAM structures.

Free guide: Guide to PECAL/AQAP certification (https://caetraprogramme.institutofomentomurcia.es/wp-content/uploads/2026/06/3_Guia_CAETRA_PECAL_AQAP.pdf) (CAETRA programme, Instituto de Fomento de la Región de Murcia, June 2026).

Regional grants that have paid for this step:

- **Closed** Aragón: IAF, Orden ECE/1276/2026 (BOA 4 September 2026) (described under "RID registration (Registro de la Industria de Defensa, Spain)" above).

6. PECAL certification (Spain, DGAM)

Depends

Only when a contract names it.

The PECAL (Spanish quality publications based on NATO's AQAP) are requirements only of the defence contracts that include them. When a contract names one, you must meet it under the oversight of a DGAM quality representative (RAC). Read the technical (PPT) and administrative (PCAP) specifications of the contracts you target.

Comes after: ISO 9001 quality management certificate; RID registration (Registro de la Industria de Defensa, Spain).

Cost Not stated by the source

Time Not stated by the source

Issued by: Dirección General de Armamento y Material (DGAM), Ministerio de Defensa.

The chicken-and-egg of PECAL: the DGAM's initial audit expects a PECAL system audited by your management for at least nine months and at least one Ministry of Defence contract with PECAL requirements in the last two years (or a certificate of conformity signed by a DGAM quality representative). A newcomer therefore usually meets PECAL inside a first contract, under the quality representative's oversight, and applies for the certificate afterwards. It is not a block before a first contract: get the RID and ISO 9001 (or EN 9100) first.

Consultant needed. Prime qualification: if you supply through a prime contractor and not the Ministry directly, the prime qualifies its suppliers by its own procedure, which none of the sources read here publishes. Ask the prime, or a consultant, what it requires.

To answer: Do you want the PECAL certificate of your quality management system itself, and not only to meet PECAL requirements inside a contract?

To answer: Has your PECAL quality system been in place, and audited by your management, for at least nine months?

To answer: In the last two years, have you had at least one Ministry of Defence contract with PECAL requirements, or a certificate of conformity signed by a DGAM quality representative (RAC)?

Free guide: Guide to PECAL/AQAP certification (https://caetraprogramme.institutofomentomurcia.es/wp-content/uploads/2026/06/3_Guia_CAETRA_PECAL_AQAP.pdf) (CAETRA programme, Instituto de Fomento de la Región de Murcia, June 2026).

Regional grants that have paid for this step:

- **Closed** Aragón: IAF, Orden ECE/1276/2026 (BOA 4 September 2026) (described under "RID registration (Registro de la Industria de Defensa, Spain)" above).

7. HSEM facility security clearance (Spain)

Depends

Needs an answer.

Answer the questions that are missing to see whether this applies to you.

Cost Not stated by the source

Time Not stated by the source

To answer: Will you handle classified information?

To answer: Do you hold: HSEM facility security clearance (Spain)?

Regional grants that have paid for this step:

- **Closed** Aragón: IAF, Orden ECE/1276/2026 (BOA 4 September 2026) (described under "RID registration (Registro de la Industria de Defensa, Spain)" above).

8. HSES establishment security clearance (Spain)

Depends

Needs an answer.

Say whether classified information will be stored at your site, and whether you hold the HSES.

Cost Not stated by the source

Time Not stated by the source

Consultant needed. HSES path: what your site needs (secure storage, the company's control body, personnel clearances) is set case by case with the DGAM, or with the ONS for NATO, EU and ESA information, and the sources read here publish no cost or duration. A security consultant can tell you what it takes for your site.

To answer: Will you handle classified information?

To answer: Will classified information be stored on your own premises?

To answer: Does the company hold an HSES (establishment security clearance)?

Regional grants that have paid for this step:

- **Closed** Aragón: IAF, Orden ECE/1276/2026 (BOA 4 September 2026) (described under "RID registration (Registro de la Industria de Defensa, Spain)" above).

About this report

Indicative, sources linked, not legal advice.

It applies the rules of the sources linked above to the answers given in this browser. It is not legal advice, and it does not say that you will be awarded a contract. Where it says a specialist is needed, it gives no answer of its own.

This is a structured reading of the rules of each programme, with the text of the regulation beside every line. It is not legal advice and it does not replace the call text or the contracting authority. It does not cover the exclusion criteria and the financial and operational capacity checks of the

Financial Regulation, or the conditions each call sets. The answers were not stored. Rules last reviewed on 2026-10-20. Generated on 12 Oct 2026, 08:00 UTC.Two requests left this browser to make it: the one that computes the verdict, with the answers the rules read, and the one for the demand map, with your CPV codes and nothing else; the server does not store or log either.
